Review Application

Shown below is the application that this user submitted.

Click on the Player Roster tab.

To deactivate players: To the far right of the page, there is a column titled ACTIVE? with defaulted check marks by all names. To deactivate a player for an upcoming game, uncheck the active box next to that player's name. Game day lineup sheets will only show ACTIVE players.

You can add players back to the game roster by putting the check back in their box.

When you deactivate or reactivate players, click on the **“Set Active Players”** button to save your changes. **When you are finished, follow the instructions for printing your game day lineup sheet.**
